## **RYAN M. HARTMAN**

### **President and CEO**

B.S. Technical Management, Embry-Riddle  
Aeronautical University

Ryan M. Hartman is the President and Chief Executive Officer of Insitu, a pioneer in the design, development and manufacturing of high-performance, low-cost unmanned aircraft systems used for intelligence, surveillance and reconnaissance in military and commercial applications.

Ryan was previously the senior vice president, Insitu programs, and before that, the senior vice president of business development, responsible for the company's sales, marketing and product development efforts. He came to Insitu from Raytheon, where he led the Unmanned Systems directorate of the Advanced Programs division.

Ryan is a veteran of the U.S. Air Force and U.S. Navy, and a graduate of Embry-Riddle Aeronautical University. He serves as the board chairman for the LuMind Foundation, an organization committed to advancing Down syndrome cognition research, as well as The Next Door Inc., a nonprofit organization that helps children, families and communities in the Columbia Gorge. He is also the president of the Pacific Northwest Chapter of the National Defense Industrial Association (NDIA).
